

# »»» HOSPITALIZED PATIENTS

At **Nob Hill Animal Clinic**, we care about your pet's health. For this reason, please take the following recommendations into account while they are hospitalized.

## VISITING HOURS:

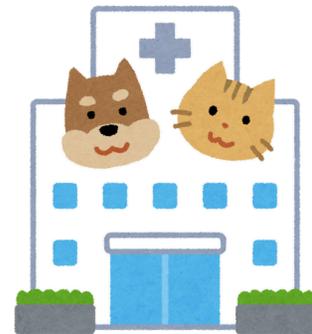

**Monday/Wednesday/Friday:** 3pm to 5 pm. **Tuesday/Thursday:** 5pm to 7pm. Our veterinarians will provide a daily update regarding your pet's condition, progress and any medical procedures performed throughout their stay. These updates will be given via phone call or text message, or during visiting hours unless an extraordinary situation occurs.

**Important:** No patient updates will be provided at night. Saturday has no visiting hour, updates will be provided via text or phone call.

## MEDICAL DISCHARGE

Once the veterinarian authorizes your pet's hospitalization discharge, they may be picked up that day until 6:00 pm. If you are unable to come at that time, your pet will transition to boarding.

\*\* This means an additional night of boarding will be charged to your bill.

## HOSPITAL GUIDELINES

To ensure your pet's comfort during their stay, please keep the following in mind:

- Bring their regular food and specify their feeding schedule.
- For cats, we recommend bringing in their usual litter to help reduce stress.

By following these recommendations, you will help us provide the best care possible to your pet.
